

## PRESIDENT IS TO BE IN ROCK ISLAND ON NEXT TUESDAY

Special Train on Which He Will Be  
Passenger to Stop at Thirty-first  
Street Station.

### PLATFORM TALK IN DAVENPORT

May Be Induced to Give Short Address  
In This City, But Schedule Does  
Not Call for One.

Rock Island will have an opportunity to greet President Wilson Tuesday afternoon when his special train will stop here for five minutes or more at the Thirty-first street station of the Rock Island lines.

Although the president is not scheduled for a talk in Rock Island he may be prevailed upon to make brief remarks. Rock Island is not even included in the list of stops, but as engines will be changed here it will be necessary for the presidential special to halt for a few minutes at least. The special train is to be the second section of the Rocky Mountain limited, leaving Chicago at 10 o'clock and arriving in Rock Island at 2 o'clock in the afternoon, if on time.

The Davenport Commercial club today received a wire from J. P. Tumulty, secretary to the president, announcing positively that the chief executive of the nation would make a platform talk from his car at 2:30 in the afternoon at the Rock Island station in Davenport. The president will also make short talks at Grinnell and Iowa City and at Des Moines he will give a formal address.

President Wilson is on his western speaking tour on preparedness and outlining his reasons for advocating increased appropriations for the army and navy. Woodworth Clum, secretary of the Greater Iowa committee, is in charge of his tour through the state of Iowa.

### Davenport Bids First.

This will be the first time President Wilson has gone through this section since February, 1912. Recently the Tri-City Press club made an effort to have the chief executive stop in this city and make an address here, but evidently the invitation from Davenport was received first.

## STATE PAGEANT BEING PLANNED

Secretary of Illinois Historical Society  
Tells of Celebration to Be Held  
In 1918.

Springfield, Ill., Jan. 26.—An agricultural pageant combining legend and romance with history and to be acted by children is being planned as part of the celebration of the Illinois Centennial in 1918. A general plan for such a pageant has been worked out by Mrs. Jessie Palmer Weber, secretary of the Illinois State Historical society.

Discussing the pageant, Mrs. Weber said: "It has occurred to me that it might be of great interest to work up in pageant form the legends relating to Indian corn and I believe some of these might be used as the opening scene or introduction to a pageant."

"I think the story of Kaskaskia would suit this purpose, especially in bringing out the French commons in which each family was assigned its little portion of land for a garden, an orchard, and a limited grazing space. One might have the French settlers with their gardens and orchards and the ever-present wheat as well as the Frenchmen always used white bread and did not depend on ground corn as did the Virginians."

"Starting with the legends of the Indian corn with the Indian scenes, the tepees and the canoes, then the arrival of the French commandant Boisbriant and the priests, the settlement at Kaskaskia, the division of the land into commons, the quaint dress

## NATION'S CHIEF HERE COMING WEEK

PRESIDENT WOODROW WILSON

of the French, perhaps the arrival of the soldiers at Fort Chartres and the first few French women might follow, and then a very pretty scene would be the harvesting of the wheat.

"The changes in the government could be shown, the arrival of the English, the coming of George Rogers Clark, followed by the Virginians or "Long Knives." Then an interesting thing would be the establishing of the English settlement at Albion, of which, Morris Birkbeck and George Flower were the leaders. These men brought in improved methods of farming and the Colony house at Albion was like an English manor, with a beautiful lawn and a profusion of flowers. We might also portray the early distinguished farmers of the state and the manufacturers of agricultural implements."

## RESCUE CREW OF FOUNDERED SHIP

New York, Jan. 27.—The story of the rescue of the crew of 35 men of the steamship Pollentia which foundered in mid-ocean Jan. 22 is told by officers of the steamer America, which arrived here yesterday from Naples.

The Pollentia's distress call was overheard by the wireless operator of the America on Jan. 19 when the distressed steamer was about 750 miles from the America. Soon afterward the steamer Giuseppe Verdi, 126 miles from the Pollentia, flashed word that she was hurrying to aid the foundering steamer.

The America's wireless operator relayed the news of the Pollentia's plight to other steamers and the Westerdijk, Siamese Prince and Montehasa hastened to the rescue.

A storm was raging and the sea was rough, and it was impossible for the rescue steamers to lower boats when they reached the Pollentia said one of the America's officers. They stood by her for three days and then the old tank steamship Narragansett arrived, poured oil on the water, quieting the waves so that the Pollentia's crew was taken off by the Giuseppe Verdi.

## SODINI IS SUED BY INDUSTRIAL HOME

Attachment Is Filed in City Court by  
Association Against Manager of  
Moline Theatre.

Attorneys representing the Moline Industrial Home association this morning filed an attachment against Harry Sodini, manager of the Family theatre, in the Moline city court. The association owns the building which houses the Family.

The theatre has been under Sodini's control for some time. He took over the place when Joe Rosenfield left and began running vaudeville. Later he discontinued this and put on moving pictures. While large houses were drawn the manager nevertheless recently made another shift and reverted to vaudeville.

It was understood today that Sodini was out of the city. At noon it was reported he was in Davenport.
